PROFESSIONAL EXPERIENCE

A.P. Moller - Maersk – Charlotte, NC

May 2021 - Present

Landside Execution Division – Vendor Management Analyst

Responsible for analysis of billing and performance to standard for contracted carriers to drive cost reduction and invoice collection. Solely manage communications inbox for carrier questions regarding required federal permits and corporate standards required when contracted to move Maersk equipment.

Key Accomplishments:

- Selected to provide analytics support for visible project targeting invoice collections of greater than one million dollars. Collaborated across lines of business to develop comparison and exception reporting to verify charges, identify discrepancies between corporate and trucker records, and ensure billing was accurate. Facilitated weekly calls with truckers to review reporting to drive resolution.
- Tracked and visualized week over week performance data of truckers to ensure performance met contractual requirements for shipping.
- Managed a business email account to assist truckers in resolving issues they were experiencing in real-time at ports. Over 50 emails received and resolved per day.
- Documented all standard operating procedures and roles and responsibilities for the start-up of the new Vendor Management team.

Catawba Rubber – Charlotte, NC

Summers, 2019-2020

- Learned and supported all aspects of end-to-end warehouse process, from sales to shipments.
 - Adapted quickly to increasing responsibilities advancing to sales and customer service roles, providing unique solutions to individual client needs, and processing client invoices and payments.
-
